---

Summary

Frontend Engineer with **3 years** of experience delivering **structured, scalable solutions** across the full product lifecycle — **from requirement analysis to deployment**. Skilled in **component-based architecture**, **clean code practices**, and **on-time delivery** within **Agile teams**. Quick to adapt to new libraries and tools and contributing effectively to **cross-functional collaboration**.

Experience

Inode Design Pvt Ltd   **Oct 2024 - Present**
Frontend Developer   Pune
🔗 https://www.inodedesign.com/

- Defined and maintained frontend architecture for multiple **micro-frontend** apps using **Next.js**, enabling scalable, modular development.
- Took ownership of new app builds from scratch — collaborating with product, design, and backend teams from **planning to production**.
- Created design-consistent UIs using **shadcn/ui**, **Chakra UI**, and **Tailwind CSS**, supporting dark mode and responsive layouts.
- Improved performance and DX by migrating to **Vite**, enabling faster builds and smoother local development.
- Structured reusable UI systems using **Figma**, **Flex/Grid layouts**, and documented components in **Storybook**.
- Led frontend discussions in **cross-functional meetings**, aligning product goals with technical implementation.
- Managed styling workflow using **PostCSS**, **SCSS**, and **mixins** for clean and **scalable code**.
- Collaborated with **QA** and DevOps to ensure production-readiness, performance benchmarks, and clean releases.

Equip9 Internet Pvt Ltd   **Sep 2023 - Oct 2024**
Associate Software Developer   Pune
🔗 https://www.equip9.com/

- Built scalable, **type-safe** web apps using **React**, **TypeScript**, **Redux Toolkit**, and **GraphQL**, ensuring clean architecture and predictable state management.
- Created responsive, reusable UI components using **Flexbox**, **CSS Grid**, and styled with **CSS Modules**, **SCSS**, **mixins**, and **Tailwind CSS**.
- Implemented smooth **micro-interactions** and **animations** using **Framer Motion**, enhancing the user experience with performance in mind.
- Handled async data operations with **async/await** and optimized API state using **React Query** for **caching** and background syncing.
- **Mentored** and trained a team of 5 interns, focusing on clean code practices, reusable design systems, and Agile-driven delivery.

Intelizign Lifecycle Services Pvt Ltd   **May 2022 - June 2023**
Jr Software Engineer   Pune
🔗 https://intelizign.com/

- Translated responsive UI designs from Figma into reusable React components.
- Integrated **RESTful APIs** using **Axios**, managing data rendering, loading states, and error handling.
- Built and validated dynamic forms using **Formik** and **Yup** for smooth user experience.
- Utilized React lifecycle methods and **Hooks** (useEffect, useState, useRef) to control UI behavior.
- Debugged layout issues and component errors using **Chrome DevTools**, console logs, and **browser testing**.

Education

DY Patil Institute of Master Of Computer Application   **March-2020 To March-2022**
Pune University   Master Of Computer Application (MCA)

Skills

Frontend Development:
React.js, Next.js, TypeScript, JavaScript (ES6+), Redux Toolkit, GraphQL, REST APIs

Styling & UI:
Tailwind CSS, Chakra UI, shadcn/ui, SCSS, CSS Modules, PostCSS, CSS Grid, Flexbox, Framer Motion

Collaboration & Workflow:
Agile Methodologies, Jira, Git, GitHub, Bitbucket, Jira

Testing & Debugging:
Chrome DevTools, Manual Testing, Console Debugging, React Profiler
