PROFESSIONAL SUMMARY

Full Stack Developer with over 4+ years of experience in **React.js, Node.js, and Python**, delivering scalable web applications and backend services across the software development lifecycle. Experienced in leading and mentoring team members, collaborating with cross-functional teams, and contributing to application architecture and complex business requirements. Currently expanding my knowledge of **AI and Generative AI**, with a strong interest in applying AI to real-world software solutions. Looking to grow in a collaborative and technically strong environment where I can contribute my experience, learn from an experienced team, and continue developing my expertise in software development and AI.

TECHNICAL SKILLS

Languages	Python, JavaScript, TypeScript, SQL
AI & ML	Generative AI, LLMs, RAG, Agentic AI, Prompt Engineering, LangChain, LangGraph
Frontend	React.js, TypeScript, Redux Toolkit, Tailwind CSS, Chakra UI, shadcn/ui, HTML5, CSS3
Backend	Node.js, Python, REST APIs, Microservices
Databases	PostgreSQL, MongoDB, MySQL
Messaging	RabbitMQ, AWS SQS, MQTT, Server-Sent Events (SSE), Event-Driven Architecture
Cloud	AWS Fundamentals, Cloud Deployment, Cloud Services
Tools	Git, Docker, VS Code, Jira, Notion
Leadership	Agile, Scrum, Team Collaboration, Team Mentoring

PROFESSIONAL EXPERIENCE

Inode-RAMS built Env Tech Pvt Ltd | Fullstack Engineer

June 2026 – Present

- Led a development team in building and enhancing a **warehouse and intralogistics platform**, coordinating technical decisions, development, testing, and delivery across multiple modules.
- Migrated a **legacy monolithic architecture to a microservices-based architecture** using **Node.js, Python, and RabbitMQ**, improving scalability, service independence, and communication across the platform.
- Developed an AI-powered reporting feature using **LangGraph** to process real-time warehouse data and generate dynamic reports, providing faster access to operational insights.
- Worked with **AWS services** for application deployment and cloud-based infrastructure, while contributing to performance improvements and scalable application delivery.

Inode Software Co | Software Engineer

Oct 2024 – June 2026

- Built an **Agentic AI** web application for the **WTP** project that accurately identified intake points, reducing manual effort by **82%** and improving operational efficiency.
- Worked closely with **IoT teams** to handle **real-time sensor data** received through **MQTT**, designing efficient data-processing flows and integrating live sensor information into the application.
- Led the team throughout the product lifecycle—from requirements gathering and solution design to development, testing, and delivery—while working closely with cross-functional teams to ensure successful project execution.

Equip9 Internet Pvt. Ltd. | Associate Software Developer

Sep 2023 – Oct 2024

- Engineered AI-enabled frontend experiences by integrating LLM-powered APIs, delivering responsive, real-time interactions and enhancing intelligent user workflows.
- Designed and built reusable component libraries and scalable frontend architecture, reducing code duplication, improving development efficiency, and decreasing page load time by 35%.
- Mentored a team of five interns, driving frontend best practices, conducting code reviews, and fostering Agile development to improve code quality and accelerate feature delivery.

Intelizign Engineering Services | Software Developer

Jun 2022 – Jul 2023

- Developed responsive and reusable React.js components from Figma designs using Core JavaScript (ES6+), HTML, CSS, and React Hooks, ensuring pixel-perfect implementation across devices.
- Integrated REST APIs using Axios, managed asynchronous data flow, built dynamic forms, and strengthened backend fundamentals by working with Python and API-driven applications.
- Worked closely with designers, backend developers, and QA teams to deliver features on time while debugging complex UI issues using Chrome DevTools and improving overall application quality.

EDUCATION & CERTIFICATION

Master of Computer Applications (MCA)

DY Patil Institute of Master of Computer Applications and Management Studies

March 2022

Pune University

Certification: Full Stack Development – UpGrad University

[View Certificate](#)

August 2023
